

# CERTIFICATE OF ASSESSMENT

**Report Reference:** SA10873-D10-ENEC-Amendment-2  
**File(s) Covered:** SA10873, SA34094  
**Issue date:** 2017/08/09

**Product:** Ram

**Issued To:** Holmatro

**Trademark:** Holmatro

**Model/Type/Serial Ref:** Model GRA 4321, GRA 4321 EVO, GRA 4321 EVO 3, GRA 4331, GRA 4331 EVO, GRA 4331 EVO 3

**Designations:** Model GRA 4321 EVO = R161/250-18.7  
Model GRA 4321 EVO 3 = R161/250-18.4  
Model GRA 4331 EVO = R161/350-20.1  
Model GRA 4331 EVO 3 = R161/350-19.9

**Ratings:** 720 bar (10,443 psi)

**Investigated By:** UL LLC  
333 Pfingsten Rd.  
Northbrook, IL 60062  
United States

**Standard(s):** EN 13204:2016

**Conclusion:** \* The submitted rams, Model GRA 4321 EVO, GRA 4321 EVO 3, GRA 4331 EVO, and GRA 4331 EVO 3 did comply with the clauses as evaluated to in accordance with EN 13204. Refer to Report Reference No. SA10873-D10-ENEC-Original, SA10873-D10-ENEC-Amendment-1, and SA10873-D10-ENEC-Amendment-2 for complete evaluation details.

\* - Since EN 13204 does not include battery operated rescue tools in its scope, no agency can certify compliance of any battery operated rescue tool to EN 13204. Prior evaluations of the hydraulic portion of the tools by other third party certification organizations are referenced in the applicable test report(s). UL LLC only evaluated the additional applicable clauses of EN 13204 for indicated model(s).
